

Permit Conditions:

1. The approved erosion control plan shall be implemented prior to the start of any land-disturbing activity; and, shall be maintained during the duration of the project.
2. The permittee is responsible for the successful completion of the erosion control plan.
3. The permittee is liable for all costs incurred, including environmental restoration cost resulting from non-compliance with the approved plan.
4. Application for a permit shall constitute express permission by the permittee and the landowner for the code official to enter the property for the purpose of inspection.
5. All mud-tracking off site onto adjacent public and private thoroughfares shall be cleaned up and removed by the end of each workday, or at the discretion of the code official, using proper disposal methods.
6. A copy of the approved erosion control plan shall be kept on the project site.
7. A daily log of regular maintenance and repair of erosion control management practices shall be made available upon request by the code official, engineering staff, and other authorized personnel.
